```
D:\Siemens\Teamcenter12\tc_menu>install -find_control_chars -u=infodba -p=infodba -g=dba workspaceobject object_name
Selected option: Look for control characters in a given string attribute.
Started POM v1000.0.1 ...
workspaceobject:object_name does not include any suspect control characters
Install terminated successfully

D:\Siemens\Teamcenter12\tc_menu>install -find_control_chars -u=infodba -p=infodba -g=dba workspaceobject Teamcenter12
Selected option: Look for control characters in a given string attribute.
Started POM v1000.0.1 ...
POM_find_control_chars on workspaceobject:Teamcenter12 gives error 515020
Install terminated successfully

D:\Siemens\Teamcenter12\tc_menu>_
```

Try

```
install -find_control_chars infodba infodba dba WorkspaceObject object_name
install -find_control_chars infodba infodba dba WorkspaceObject object_desc
```

I get:

```
C:\Siemens\Teamcenter13\tc_menu>install -find_control_chars infodba infodba dba
WorkspaceObject object_name
Selected option: Look for control characters in a given string attribute.
Started POM v1000.0.1 ...
WorkspaceObject:object_name does not include any suspect control characters
Install terminated successfully
```
